

PARTS LIST

- YOU WILL NEED:**
- Wall-Friendly Tape
 - Level
 - Tape Measurer

INSTALLATION INSTRUCTIONS

STEP 1

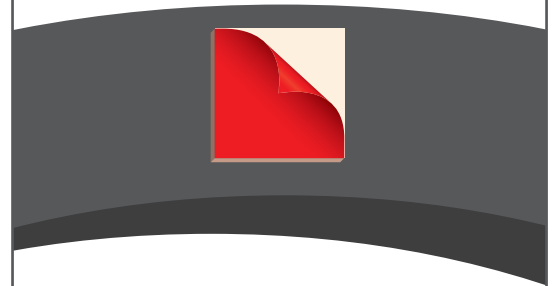

Prepare the surface the graphic will be applied to, making sure it is clean and dry.

STEP 2

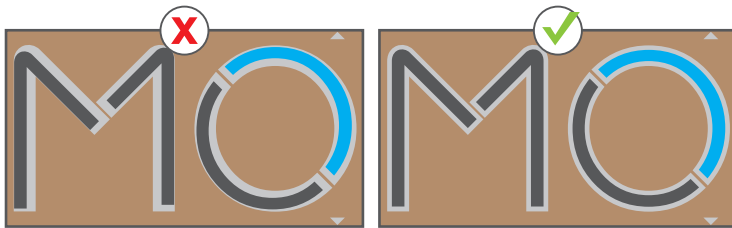

Place the template where you want the graphic on the wall. Use the guide arrows on the template and a level to make sure it's straight. When you are happy with the placement, adhere the template to the wall using your tape.

STEP 3

Peel the backing paper off of the tape strips that are on the back of the letters.

STEP 4

Using the template as your guide, begin adhering the letters to the wall using firm, even pressure. To ensure accurate placement, make sure all letters are centered within the template outlines.

WARNING: Using excessive and/or concentrated pressure can result in permanent indentations in the graphic. The tape may also remove paint from the walls if removed.

STEP 5

Remove the template from the wall.
