At Moso Retail Environments, we prefer a print ready PDF.
By supplying a PDF, you create a simple work flow between you and us.
To create a print ready PDF please follow the guidelines below.

✓ 1. Outline all fonts.
✓ 2. Photos should have a resolution of 150 dpi.
✓ 3. Embed all images.
✓ 4. Set the color mode to CMYK.
✓ 5. Document should be set up to the correct final size.
✓ 6. Use the PDF setting “High Quality” when saving your PDF.
✓ 7. Examine the PDF at 100% view to verify the image quality, text, color, grammar, and final size.

If color matching is required, please specify any pantones or supply a hard copy.
If any assistance is needed, please contact us and we will gladly help you through the process.

## Design Information

Please Keep All Important Artwork & Text Inside the Outside Safe Viewable Area and Inside Safe Viewable Area.
Extend Artwork To The Edges of the Document, making sure the Outside Ring Graphics don’t bleed into the Inside Ring Graphics area.
Be sure to rotate artwork in the Inside Ring because it gets folded under.
Use CMYK color mode, covert text to outlines, and embed images (300-600dpi for 75-150dpi output).
