## ASSEMBLY INSTRUCTIONS

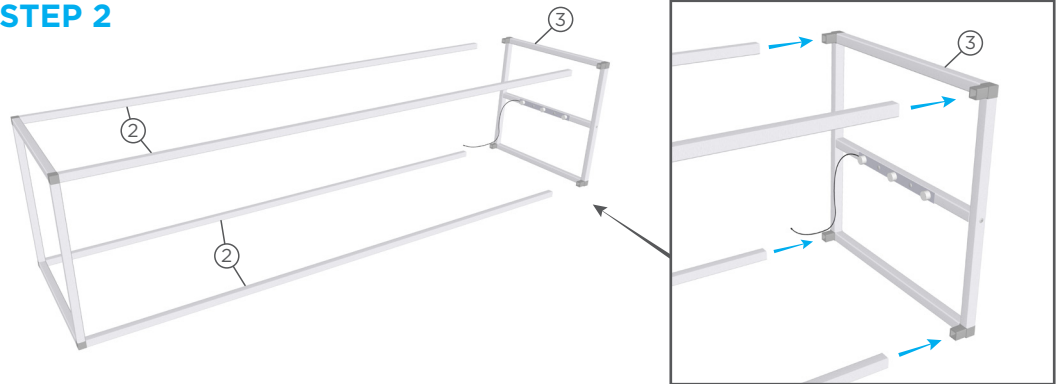

To make assembly easier, it's recommended that you put together the frame on its side (horizontally) in an open area. Installing the graphic (Step 3) is also easier if it is done by two people on opposite sides of the frame.

### STEP 1

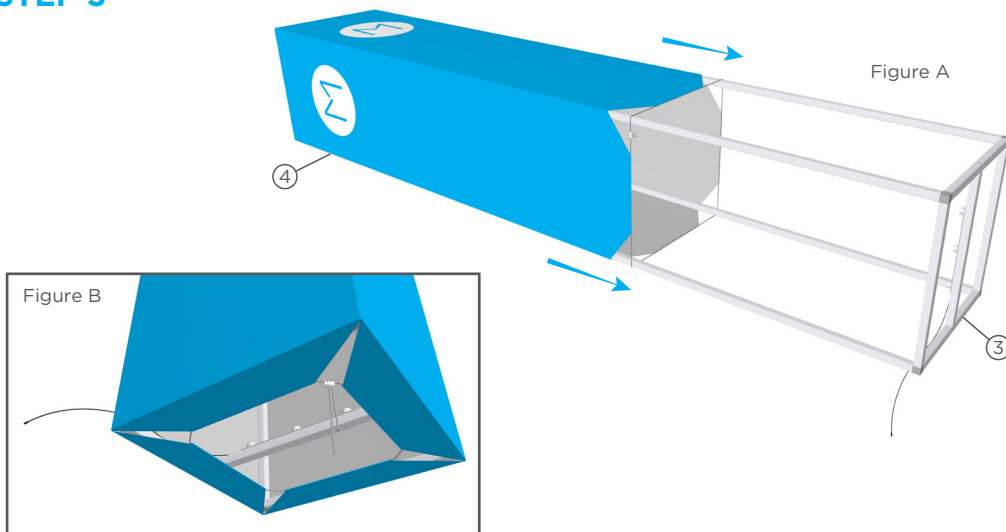

Insert a Side Bar into each of the four connectors of the Frame Top.

### STEP 2

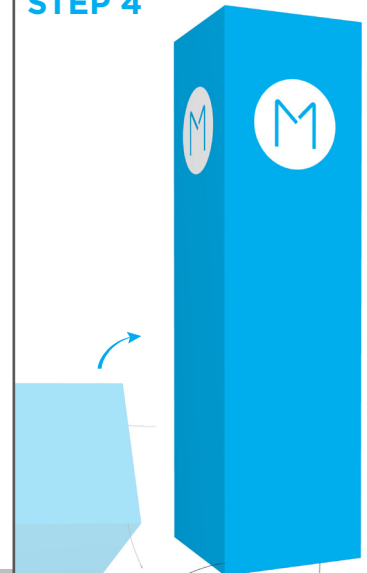

Insert the other end of the four Side Bars into the connectors of the LED Frame Base.

### STEP 3

Pull the graphic over the Frame Top, pulling it toward the LED Frame Base until it is taught at the bottom of the assembled frame (Figure A). Secure the graphic by adjusting the drawstring at the base of the graphic and thread the end of the LED power cord through the slit at the base of the graphic (Figure B).

### STEP 4

The Bella Monument is now fully assembled. Stand it upright and plug in the power cord.
